

How to Book a MetroLink Trip: A Step-By-Step Guide

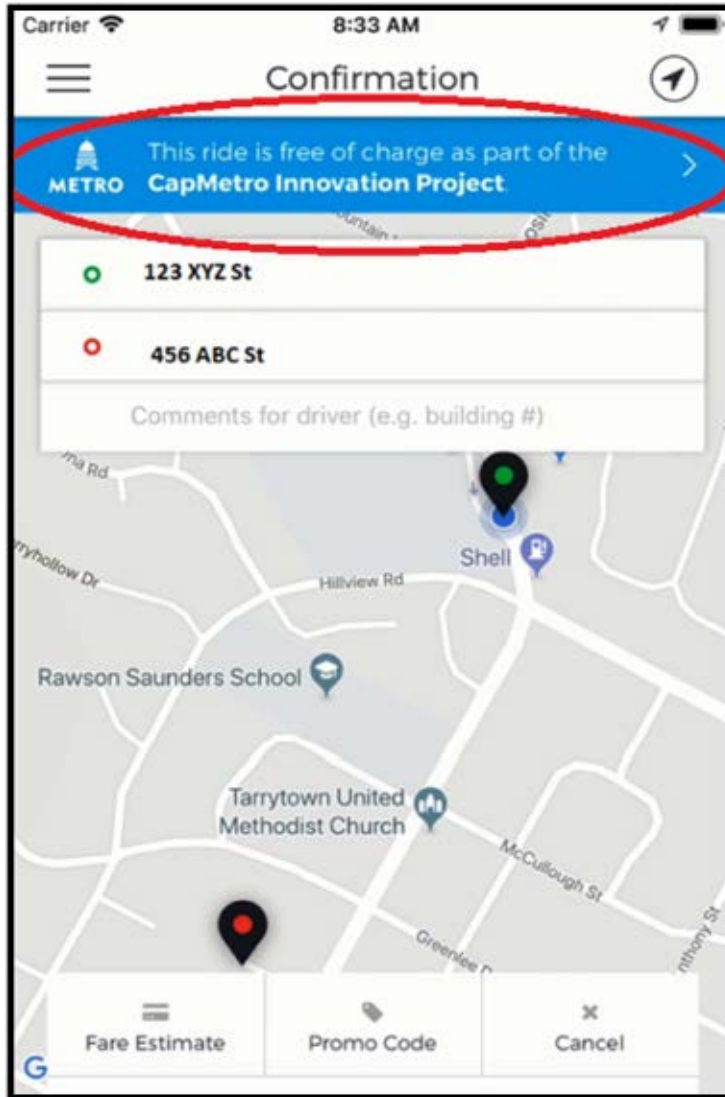

1. Open the RideAustin App

2. You will see the following screen. Enter the trip origin and destination. Make sure that STANDARD is selected. One of the conditions of a free trip is that a standard vehicle be used.

3. You must see the message below indicating that the trip is free of charge as part of the CapMetro Innovation Project. If this message is not visible, the trip does not qualify as a free trip. *Note: Following this screen you may see a Peak Usage message screen. Peak Usage trips are qualified for free trips under the MetroLink program.*

4. Press REQUEST STANDARD and wait for your ride.
