

About the Advisory Committees

The **Multimodal Community Advisory Committee (MCAC)** is formed of community members and supports both Project Connect and the [Austin Strategic Mobility Plan](#). It strives to ensure the community's needs and preferences are incorporated into both initiatives. The MCAC reviews plans and provides guidance, but it doesn't hold binding votes or adopt resolutions.

The **Technical Advisory Committee (TAC)** is designed to ensure governmental entities throughout central Texas have a say in the planning process. It is composed of staff members at the municipal and county level, from regional planning groups like [CAMPO](#) and [CTRMA](#), and from state agencies like [TxDOT](#) and the [Texas Facilities Commission](#).
